

EZXCAB Performance Series

Performance Series Air Filter with Cabinet

EZXCAB Air Filter with Cabinet

The Model EZXCAB filtration system is designed for installation in the return-air duct of any forced-air heating/cooling system. It is designed for use in systems with airflow up to 2000 CFM. The Model EZXCAB is available in 2 sizes, 0016 and 0020. The model EZXCAB features an EZ Flex™ expandable filter. The EZ Flex filter is non-woven radial pleating, highly efficient synthetic filter media, designed to clean the air of particles as small as 0.3 microns.

- Powder-painted steel cabinet
- American sterling gray color
